

# CHÂTEAU GOURRAN

Dear subscriber, by this service we keep you informed of the process of wine making, trade, hall of fame of our wines and much more. Our homepage will be updated at the same time.

## Château Gourran enters the Norwegian market

The Norwegian wine importer ProVino AS has provided our wines to the Norwegian market since March 2011. It is the Grande Réserve 2008 that is our first product to enter.

March 1. the Grand Réserve was demonstrated at a large Wine Fair in Oslo targeting Hotels and restaurants.

### ProVino AS

The company is specialized in import of selected wines from Italy, Spain and France emphasizing a few numbers of producers where the quality versus price is optimized. Since 2007 ProVino has

increased its turnover considerably.

## Right now at Château Gourran

In the cellars: We predict a large sale of the Clairet wines in Denmark this summer. It is the vintage 2008, which is still in stock and the 2010 that will be bottled in May, that should leave the shelf's during this season. We have labeled and packed the rest of the 2008 vintage.
